GIBCA

Compact Laminate Solutions

Efficient installation, cost-effective solution, robust product quality, hygienic and hassle-free operation – these are the key modification in our innovative integrated panel systems.

Customization Options

Suited to fit any brand of sanitary fixtures and plumbing configuration, it also has an easy access system for services and maintenances while concealing all plumbing works. We offer wide choice of finishing options.

Easy Installation

Significantly reduces the installation time as its simple to install. The system arrives on site ready to install.

Highly Cost-Effective

Our Integrated panel system due to its high efficiency offers significant cost savings over traditional IPS systems. It's concealed design and security features prevents risk of vandalism and any other on-site damage possibility.

CONSTRUCTION

- Designed with heavy duty magnetic catch requiring at least 5 kilos of pull strength to take out the panels, thus preventing vandalism and unauthorised panel removal.
- Module includes floor/wall anchored ultra-strength galvanised steel sub-frame.
- Panels are made in 13 mm solid grade high - pressure compact laminate.

Telescopic Ratches System

- Supported by a high strength hinge and designed with telescopic ratches fitting, this system provides 10 position adjustment slots thus allowing the panels to be positioned at different height levels.
- Made of steel yellow zinc plated finish.

Up Lift Panel System

- Constructed with an extrusive set of hinges, this system enables ease of access within a single slide-up motion of panels.
- Made of zinc plated finish.

Gas Lift Panel System

- Integrated with a gas lift mechanism technology, this easy access provides smooth and soft lift mechanism with gas spring.

Flap Panel with Gas Spring System

- Constructed with an extrusive set of hinges and gas spring, this system creates a seamless flap panel operation.
