WHY ADAPT OUR EDGE-CUTTING SOLUTIONS?

- ◆ Cost-effective and customizable
- ◆ Functional and durable
- ◆ Beautifully engineered
- ◆ Easy to clean
- ◆ Sustainable and environmental friendly
- ◆ Highly recommended for commercial and business units, healthcare industry, learning & educational institutions, banking & financial centers, aviation, and hospitality sector

WASHROOM CUBICLES

“Unveil your limitless design potential with Gibca's sandwich panels.”

Creatively designed washroom cubicles that gives a fresh new look to every washroom interiors whilst ensuring every user's maximum privacy.

ADVANTAGES OF USING SANDWICH PANELS:

- ◆ Creates more privacy for users.
- ◆ Concealed fixings delivers impressive visual aesthetics.
- ◆ Premium panel design compared to traditional hinged boards.
- ◆ Robust, versatile panel construction with the highest grade hardware provides durability and aesthetics that are maintained despite years of usage.
- ◆ Versatile panel to support multiple hardware configuration for quick and easy installation. Custom concealed fixings for elegant, monolithic look.

*Minimum thickness for sandwich panel construction starts from 20mm.

*Thicknesses below 20mm are also available for other panel constructions.

STEP 1

Select your desired panel construction of your washroom cubicle.

STEP 2

Select the available panel of your choice.

STEP 3

Check our Gibca color selector and select your desired panel face's finishes.

STEP 4

Specify the depth, height, and width for your washroom cubicle. For privacy, we recommend a minimum of 2000mm for dividers.

STEP 5

Choose the hardware type and its finish.

*For further customization options and cost-effective washroom area solution, please contact GIBCA
